

7 Fast Steps

START

1
TX Legislative Black Caucus (TLBC) gets third-party validation of the numbers.
(use Legislative Budget Board, State Auditor's Office, State Comptroller, TX Dept. of Insurance, TX Assn of School Business Officials, etc.)

2
Comptroller issues addendum to biennial revenue estimate.
"Dear Legislature: We've learned of a Plan B. If you pursue Plan B to get Congress to fix their business model, you can use this revenue estimate that goes with Plan B."

3
TLBC and teachers' unions "encourage" Legislature to pursue Plan B:
"Before we fire teachers and close hospitals, let's get Congress to fix their business model!"

4
Other States join the movement.
"Hey, we don't want to raise taxes or cut programs, either. We want what Texas is getting!"

5
TLBC & teachers' unions get President Obama & national Democrats aboard.
Rally the whole nation, address all concerns, combine best strengths of both camps:
efficiency and ownership from using free markets, plus safety and fairness from using proven effective regulatory oversight by the 50 States.

6
People across America rally to the cause, implore Congress to do this.

7
Congress does it, huge Win-Win for everyone.
DEMs get credit for bold leadership that actually solved the problem.
REPs get return to Founding principles of Freedom, Capitalism & Limited Government.
